Introduction

Many possibilities.

Today, the cricketing world is split across several geographies, several ecosystem partners and its value is not realized fully. The fans, players and clubs cannot interact globally easily due to several difficulties – ranging from operational, technical, contractual, etc.

Cricket makes everything seamless – globally.

The Crickettoken brings together the Cricketing world. For all use cases from Digital Collectibles, Ticketing, Merchandising, Fantasy Sports, eSports, Licensing, etc... A place for the future of the sport...
